Native Plants for Birds

Gardeners Can Make a Difference – Help Protect Native Birds!

"Because food for all animals starts with the energy harnessed by plants, the plants we grow in our gardens have the critical role of sustaining, directly or indirectly, all of the animals with which we share our living spaces"

-Dr. Doug Tallamy, Bringing Nature Home

Bird-Friendly Landscaping Tips:
- Plant drought-tolerant native plants to provide habitat for insects that support the birds.
- Plan for as long a season of bloom as possible (early spring to late fall) with at least three different sources of insects, seed, and berries present. A variety of plants ensures a variety of food for birds, and a long growing season supports their diet for a longer period of time.
- Instead of planting one of each species scattered throughout the garden, try planting at least 3 of the same species together – this helps the bird save energy.

(See CoNPS Gardening Guides for sample plans of native plant gardens – www.conps.org/horticulture)

Wildflowers listed are perennials unless otherwise noted. (*) May be aggressive spreaders with good soil and moisture.

<td>Blanket Flower</td>
<td>Gaillardia aristata</td>
<td>Grows 12-32in., prefers full sun and well-drained soil. Blooms late Spring to Fall; most commercial varieties are non-native hybrids Also good for: seeds</td>
<td>Sparrows, finches, grosbeaks, buntings, chickadees</td>
</tr>
<tr>
<td>Black-eyed Susan</td>
<td>Rudbeckia hirta</td>
<td>Grows 1-2ft., prefers full sun and well-drained soil. Blooms early Summer to mid-Fall Also good for: seeds, pollinators</td>
<td>Waxwings, orioles, nuthatches, warblers, wrens, thrushes, jays, chickadees</td>
</tr>
<tr>
<td>Goldenrod</td>
<td>Solidago spp.</td>
<td>Grows 3-6ft., prefers full sun and all soil. Blooms early Summer to late Fall Also good for: bees, butterflies, and other insects</td>
<td>Finches, sparrows, buntings, grouse</td>
</tr>
<tr>
<td>Sandcherry</td>
<td>Prunus pumila besseyi</td>
<td>Grows 4-6ft, prefers part sun and any soil. Blooms in Spring with fruit through late Summer Also good for: fruit, native bees, butterflies</td>
<td>Nuthatches, grosbeaks, orioles, vireos, jays</td>
</tr>
<tr>
<td>Gamble Oak</td>
<td>Quercus gambelli</td>
<td>Grows 10-30ft, prefers full sun and low water. Blooms in late Spring with showy Fall foliage. Host Plant for the state insect, the Colorado hairstreak butterfly Also good for: Shelter, seed, insects, and nesting</td>
<td>Warblers, vireos, towhees, buntings, grosbeaks,</td>

Additional Native Plants for Birds

**Trees and Shrubs**

**Blue Spruce** (*Picea pungens*)
- Prefers: full sun; any soil
- Grows: 50-75ft.
- Growing season: evergreen
- Best for: seeds, insects, shelter
- Birds: siskins, nuthatches, crossbills

**Boxelder Tree** (*Acer negundo*)
- Prefers: full sun; well-drained soil
- Grows: 35-90ft.
- Growing season: flowers early spring, leaves till late fall
- Best for: seeds, insects, caterpillars, shelter
- Birds: woodpeckers, nuthatches, chickadees, finches

**Red-Osier Dogwood** (*Cornus sericea*)
- Prefers: full to part sun; moist, well-drained soil
- Grows: 3-9ft.
- Growing season: blooms late Spring, foliage through Summer, brilliant red bark in Winter
- Best for: butterflies, berries, perch
- Birds: Over 98 species including flicker, tanager, woodpeckers, and catbird

**Perennials**

**Showy Milkweed** (*Asclepias speciosa*)
- Prefers: full sun; wet, well-drained soil
- Grows: 2-3ft.
- Growing season: late Spring to early Fall
- Best for: nectar, seeds, monarch butterfly host plant
- Birds: hummingbirds, warblers, wrens, orioles, etc.

**Tickseed** (*Coreopsis verticillata*)
- Prefers: full sun to partial shade; dry, well-drained soil
- Grows: 1-3ft.
- Growing season: Summer
- Best for: seed, butterflies, caterpillars
- Birds: gold finches, sparrows, towhees, buntings

**Showy Four O’clock** (*Mirabilis multiflora*)
- Prefers: part shade; dry, well-drained soil
- Grows: 1-3ft.
- Growing season: mid-Spring to early Fall
- Best for: insects, nectar
- Birds: hummingbirds

**Rocky Mountain Iris** (*Iris missouriensis*)
- Prefers: full sun; wet soil
- Grows: 1-3ft.
- Growing season: late Spring
- Best for: nectar
- Birds: hummingbirds

**Dotted Gayfeather** (*Liatris punctata*)
- Prefers: full sun; dry, well-drained soil
- Grows: 1-2ft.
- Growing season: late Summer to mid-Fall
- Best for: seeds, nectar, insects
- Birds: sparrows, vireos, waxwings, orioles

**Boulder Raspberry** (*Rubus deliciosus*)
- Prefers: full sun; well-drained soil
- Grows: 4-5ft.
- Growing season: Late Spring to Summer
- Best for: bees, berries, seeds
- Birds: hummingbirds, finches, chickadees

**Rocky Mountain Juniper** (*Juniperus scopulorum*)
- Prefers: full to part sun; dry, well-drained soil
- Grows: 12-36ft.
- Growing season: blooms late Spring, evergreen
- Best for: berries, shelter, nesting, insects, caterpillars
- Birds: waxwings, grosbeaks, sparrows, robins

**Big Sagebrush** (*Artemisia tridentata*)
- Prefers: full sun; any soil
- Grows: 6-12ft.
- Growing season: evergreen
- Best for: berries, insects
- Birds: finches, chickadees, woodpeckers, sparrows

**Blue Grama** (*Bouteloua gracilis*)
- Prefers: full sun; dry, well-drained soil
- Grows: 12-14in.
- Growing season: mid-Summer to mid-Fall
- Best for: seeds, insects, host plant for 6 skippers
- Birds: sparrows, chickadees, nuthatches, finches

**Harebell** (*Campanula rotundifolia*)
- Prefers: any light; dry, well-drained soil
- Grows: 1-3ft.
- Growing season: early Summer to Fall
- Best for: nectar, insects
- Birds: warblers, mockingbirds, waxwings, sparrows

**Nodding Onion** (*Allium cernuum*)
- Prefers: full sun; wet soil
- Grows: 1-3ft.
- Growing season: Summer
- Best for: nectar, insects
- Birds: warblers, Mockingbirds, waxwings, sparrows

**Smooth Blue Aster** (*Symphyotrichum leve*)
- Prefers: full sun; dry, well-drained soil
- Grows: 1-3ft.
- Growing season: Fall
- Best for: seeds, insects, caterpillars
- Birds: nuthatches, sparrows, thrushes, woodpeckers

**Narrow-Leaf Fireweed** (*Chamaenerion angustifolium*)
- Prefers: full sun; moist, well-drained soil
- Grows: 3-6ft.
- Growing season: early Summer to Fall
- Best for: nectar, insects
- Birds: sparrows, orioles, waxwings, hummingbirds
